This series is dedicated to highlighting the challenges and opportunities that lie within and around this central region of the global economy. It will be divided into four broad areas: resource management (covering topics such as oil prices and stock markets, history of oil in the region; water; labor migration; remittances in the region); international trade and finance (covering topics such as role of foreign direct investment in the region; Islamic banking; exchange rate and investments); growth and development (covering topics such as social inequities; knowledge creation; growth in emerging markets) and lastly demographic change (covering topics such as population change, women in the labor market, poverty and militancy).
