FDITOR

David F. Ruccio, University of Notre Dame, USA

supported by an editorial board and an international advisory board

The aim of **RETHINKING MARXISM** is to stimulate interest in and debate over the explanatory power and political consequences of Marxian economic, cultural, and social analysis. To that end, we publish studies that seek to discuss, elaborate, and/or extend Marxian theory. Our concerns include theoretical and philosophical matters as well as more concrete empirical analyses—all work that leads to the further development of distinctively Marxian discourses. We encourage contributions from people in many disciplines and from a wide range of perspectives. We are also interested in expanding the diversity of styles for producing and presenting Marxian critiques.
