

CONCERNING *CUADERNOS DE ECONOMÍA*

“Cuadernos de Economía” is published every six months by the Universidad Nacional de Colombia’s School of Economics (Economics’ Faculty). It is one of the oldest economic journals in Colombia; its first edition appeared during the first semester of 1979.

The journal’s objective is to broadcast (within a national and international academic setting) intellectual advances regarding economic theory, methodology and applications, as well as the results of research and specialised work.

We aim at contributing to the academic debate among national and regional scholars allowing a wide spectrum of competing theoretical approaches. Its public consists of academics (researchers, teachers and university students), members of government institutions and private entities interested in studying economic theory, economic policy, socioeconomic development and other topics of interest for the discipline.

Our publication uses double-blind refereeing (i.e. both the evaluators and the authors remain anonymous). The foregoing guarantees the impartiality of the concept being put forward. The referees are selected according to their knowledge of the topics being covered by each article. Evaluation takes into account such aspects as: the originality of the content, conceptual rigor, methodological aspects, clarity and coherence in both the argument and how it is expressed and the pertinence of the conclusions. The content of an article is the author’s responsibility and does not commit the journal or the institution in any way.

Any author interested in submitting a contribution to be evaluated must ensure that it reaches the journal conforming to the specifications laid down in the *author guidelines*. This information can be found at the end of each issue and on the journal’s web site: <http://www.ceconomia.unal.edu.co>.

A PDF version of the journal’s articles can be consulted and downloaded from web site <http://www.ceconomia.unal.edu.co>. If one is interested in acquiring back numbers in physical format then one can get in touch with the journal directly at the following address: Facultad de Ciencias Económicas, Edificio 310, Universidad Nacional de Colombia; at the following e-mail address: revcuaeco_bog@unal.edu.co, or on telephone 3165000, extension 12308.

AUTHOR GUIDELINES

Cuadernos de Economía takes into consideration for possible publication unedited academic contributions, research articles, reports and case studies, essays, bibliographic reviews, criticism and analytical reports of books written in Spanish, English, French or Portuguese which have not been previously published (except as a working paper) and which are not under consideration for publication elsewhere. If such material has been presented as a working document, then the complete reference must be included. The texts must make a contribution towards advancing knowledge in economic, political, social, administrative and demographic areas.

Authors must fill in an article receipt form (which can be requested by e-mail or from the journal’s office) and sent together with the material to be considered for publication, plus their updated curriculum vitae, to the following e-mail address: revcuaeco_bog@unal.edu.co. In case it is decided that an article is publishable, then the peer evaluations will be sent to the authors so that they can make the respective adjustments (if so requested) within a maximum period of 30 days.

Cuadernos de Economía’s editorial committee is the final body deciding on whether contributions should be published. It should be stressed that simply sending material does not oblige the journal to publish it.

The journal’s publication-team is committed to keeping authors informed during the different stages of the publishing process. Articles will be received throughout the whole year.

EDITORIAL NORMS

1. Work must be sent in a Latex or text file (Word for Windows (.doc) or Rich Text Format (.RTF)) and must comply with the following requirements: material shall have no more than 10,000 words including notes and bibliographic references; the text shall be written in single space, Garamond font size 13, on letter-sized pages having 3 cm margins.

2. Data concerning the authors must be indicated in footnotes by an asterisk: author’s names, profession or job, level of studies, actual post held, place of work and (obligatorily) their e-mails and their address.

3. An analytical abstract in written in Spanish and English must be included, containing a maximum of 100 words. The summary must be clear and provide sufficient information for the readers to be able to easily identify the article's subject.
4. Four or five key words must be given in Spanish and English and four or five classification codes using JEL nomenclature which can be consulted at the following web site: http://www.aeaweb.org/journal/jel_class_system.php.
5. The article's title must be explanatory and illustrate the essence of the work.
6. Tables, graphs, plots and/or maps must be legible, having very clearly defined conventions; source information must be cited in the lower part of them and the files must be sent in the programmes used for drawing them (spreadsheet for tables, plots and graphs, and image for figures or maps). The page on which they must be inserted or whether they should be included as appendices must be clearly indicated. If material which is protected by copyright is to be used, then the authors are solely responsible for obtaining written authorisation from those who hold the rights.
7. The headings for each section must be written in bold, aligned to the left and in sustained capitals. Second level titles must be written in bold, aligned to the left and combine capital and small case letters. Third level titles must be written in italics, aligned to the left and combine capital and small case letters.
8. Equations must be numbered in a consecutive manner and be placed within square brackets ([1], [2], [3] . . .). Such numbering must be aligned with the right-hand side of the page.
9. Mathematical symbols must be clear and legible. Subscript and superscript must be correctly used.
10. If the proposed document should include textual citation, then the following indications should be followed: if the quotation has five lines or less then it must be preceded by a colon and be placed within inverted commas; if the quotation runs for more than five lines then it must be placed in a separate paragraph, 1 centimetres from the left-hand edge of the page, in Garamond font size 12 and aligned to the right.
11. Footnotes will be exclusively explanatory or explicative; they must not include bibliographic references.
12. If an abbreviation or acronym is to be used then it must indicate its complete equivalent and the term (placed within brackets) which will be used from that point on in the rest of the document.
13. Bibliographic references must retain the author-date style, inserted within the text (López, 1998). When a reference is given textually then the number of the page from which it was taken must be given after the date, separated by a comma (López, 1998, 52), if it includes several pages (López, 1998, 52-53) and in the case of several authors (López *et al.*, 1998).
14. The bibliography must only list the sources cited in the work; the section is thus entitled Bibliographic References. Examples of the norms for citing other work as used by the journal are the rules of APA Style: (<http://flash1r.apa.org/apastyle/basics/index.htm>).
15. All authors cede their publication rights to the Universidad Nacional de Colombia's School of Economics (Economics' Faculty). *Cuadernos de Economía* reserves printed and electronic publication rights and any other type of rights, in all languages.
16. The journal reserves the right to make any editorial changes which it considers pertinent for providing an article with the greatest clarity possible. It is thus recommended that authors write with the greatest rigor, verifying their spelling, use short, homogeneous paragraphs and use punctuation marks correctly.
17. Exceptionally, it may be proposed that texts be reproduced which have been broadcast in other media or which require translation, always assuming that this does not imply any additional publication costs.

II. PAPER DATA

Which of the following sections of the journal is your paper intended to be?

<input type="checkbox"/>	Article
<input type="checkbox"/>	Survey article (at least 50 references surveyed)
<input type="checkbox"/>	Reviews
<input type="checkbox"/>	

Title of the Article

¿Has your paper been published before in any other journal?

<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

This article is a translation of a published one?

<input type="checkbox"/>	No	If it is so, please tell us in which medium it is found
<input type="checkbox"/>	Yes	URL

¿ Article previously published as a working paper

<input type="checkbox"/>	No	If it is so, please tell us in which series
<input type="checkbox"/>	Yes	URL

I hereby declare that the article is not under consideration in another magazine and that it will not be presented to any other publication during Cuadernos de Economía's evaluation period.

<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

I hereby authorize the Faculty of Economic Sciences the publication of the manuscript (publication assignment of rights)

<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

The authors accept the decision of the Editor or Editorial Committee as final with regard to the material submitted for publication and will not incur in legal action to that decision.

<input type="checkbox"/>	Yes
<input type="checkbox"/>	No

III. PAPER DESCRIPTION

Academic abstract of your paper in Spanish, no longer than 100 words (optional).

Analytical abstract (no more than 100 words). It must be clear and identify clearly the subject, problem, methodology, main results and contribution of the article.

Key words

JEL classification codes (mín. 4 y máx. 6) (http://www.aeaweb.org/jel/jel_class_system.php)
